- The rules are obsolete and outdated.
- There needs to be accountability
- Random drug and alcohol testing for judges
- No yelling
- No sleeping at the bench
- No legal bullying
- No disrespect to Pro Se litigants
- No yelling at someone because of facial expressions that may come naturally
- No bias
- Financials readily available who is contributing to judge campaign
- Judges should not have conflict of interest with any party
- Judges should not show bias and be fair
- Judge shall not ignore obvious perjury
- Judge shall read the case and do their homework before making a decision that affects someone's life
- Judge shall abide by Federal law when making decisions too
- Judge shall ask for time to make a decision if consultation needed to educate judge
- Judge shall not retaliate
- Judge shall not place illegal gag orders on anyone
- Judge shall abide by the Constitution of the United States
